

# Diversity in STEM:

## What can we learn from Wonder Woman?

### webinar

#### Date & Time:

July 18, 1-2 pm ET

#### Price:

CASC Members \$10  
Non-Members \$25

#### To register:

1. [Go to the CASC website Events page.](#)
2. Register for the webinar.
3. Receive login information by email.

#### Questions?

[info@casc-accs.com](mailto:info@casc-accs.com)

Ce webinaire se déroule tout en anglais, mais vous pouvez adresser vos questions en français à l'instructeur bilingue.

Diversity, inclusion, privilege; these are issues that are top of mind across the country. We see them in the news, on our social media accounts, and in our place of work. What does this mean for science centres and STEM in general? How can we connect, engage and inspire all members of our communities? How can we enhance our own offerings as science centres and museums to create learning and inspirational opportunities for all?

In this webinar we will define diversity, learn what it means to be inclusive and examine our privilege. You will hear about inspirational success stories from science centres across the country, and gather resources to begin discussing these important issues at your own institution. We invite you to join us as we discover why Wonder Woman, the most tweeted movie of 2017, is so much more than just another superhero movie.

#### Presenters:

**Jefferson Darrell is a Media Relations Officer at the Ontario Science Centre where he was instrumental in spearheading the creation of a Diversity Inclusion Action Team.**

A passionate advocate, Jefferson is looking forward to continuing to learn and grow while engaging with others on the issues of diversity and inclusion.

**Samantha Matters is an Outreach Coordinator at the TELUS World of Science – Edmonton and is part of the CASC Diversity and Inclusion Committee.**

Having worked closely with Indigenous communities, Samantha is excited to bring this experience to the Committee and help CASC members learn the importance of diversity and inclusion.

#### Who should attend?

Administrators, Programming Staff, Managers

#### About CASC

The Canadian Association of Science Centres builds capacity for its members to inspire a creative and prosperous Canada through science and technology engagement.

We are a national platform for Canada's Science Centres and informal science engagement. We represent 45 Science Centres, Museums, Aquariums and Planetariums across Canada that attract 8 million visitors annually, of which 6 million are adults.
